- Tamil-Native/Bilingual Proficiency
- English-Full Professional Proficiency

BALA SOUNDARIYA R

Full Stack Developer

Profile

To secure a challenging position as a Full Stack Developer in a fast-paced environment, where i can utilize my expertise in developing web applications and software solutions

Capstone Project

Full Stack Home Rentals Application using ReactJs, Redux, NodeJs, MongoDB, JWT and Material UI

Description: I developed a Full Stack Home Rentals application that enables users to create, manage, and search for property listings. Leveraging technologies like React, Redux and Tailwind CSS, I implemented features such as user authentication, property creation, booking functionality, and wishlist management. My proficiency in Redux and MongoDB allowed me to build a seamless user experience. The project demonstrates my skills in full-stack development, UI design, and database management.

Key Skills : HTML, CSS, Javascript, React.js, Redux, Mongodb, NodeJs , ExpressJs, JWT and Material UI. -FrontEnd , Backend,Fullstack .

Internships-Innovixion Tech

Project 1: Count Down Timer

- Creating a countdown timer to Special day or event using HTML,CSS and Javascript(FrontEnd)

Project 2: ToDo List

- To-Do List Application creating a simple to-do list where users can add, edit and delete tasks using frontend, HTML,CSS and Javascript.

Project 3: Quiz App

- Designing a Quiz App ,I make a quiz app using HTML,CSS and Javascript. In this quiz app ,can update your own questions and multiple options and it will display the score after submitting the answers for all questions.

Mini Projects

1. Book Store

- This project demonstrates a Book Store application built using the MERN stack.KEYSKILLS:MongoDB, Express.js, React, and Node.js.
- Add new books to the store by create books.Modify existing book details by edit book.Remove books from the database by delete books.

2. Quiz App

- I am creating a quiz app using React.js. If a user selects the wrong answer, the app will display the correct answer. After submitting answers for all questions, the React.js quiz app will show the final score.Press Reset button for restart a quiz. KEYSKILLS:Javascript,CSS,Html,React.
